***ABSTRACT***

*This study aims to determine the management of regional property, according to Permendagri Number 16 of 2019 at the Horticultural Food Crops and Livestock Service Office in Bengkalis Regency. The type of data used in this study is qualitative data. The focus of the research is to find out and identify the process of managing Regional Property by the Horticultural Food Crops and Livestock Service Office of Bengkalis Regency. The results of the study show that the management of regional property at the Horticultural Food Crops and Livestock Service Office of Bengkalis Regency has not been fully implemented properly. The management of regional property at the Horticultural Food Crops and Livestock Service in the management system has problems, namely in terms of human resources which are not good at managing them.*
