CHAPTER IV CONCLUSION AND SUGGESTION

4.1 Conclusion

After doing, the apprenticeship program at Corporate Communications PT.Centro Digital Riau Mediatama there is some conclusion as follow:

1. All work procedures and conditions carried out during the internship in the field of television program production are carried out in accordance with the provisions in force at PT. Ceria TV
2. After carrying out an internship at PT. Centro Digital Riau Mediatama, can gain a lot of knowledge, especially focusing on the television and communications industry.

4.2 Suggestions

Lecturers and KP coordinators directly or indirectly monitor students who do KP. The aim is to assess student performance and help resolve problems that may arise in their respective workplaces. Before giving advice on places for internships, lecturers should first consider the place where students will occupy the KP program so that students get a place that suits the basics of the department. Provision regarding student placement specifications and a general description of the company is also needed so that students can prepare themselves better.
