ABSTRACT

Reading is one of the ways that must be improved for students, because reading can get a lot of information. However, it can be seen that students' reading interest can decrease due to unattractive reading materials. The purpose of this final project was The Making of "Pulau Tengah" Storybook. The method used in this study was descriptive. There were several processes in making this Indonesian and English storybook, such as collecting material, providing material, writing scripts from this story into Indonesia and English, and designing images based on these stories. Based on the results of the evaluation, this storybook can help to attract students' reading interest, help students to easily understand the contents, learn about history and also learn English by reading and finding new words from storybook. The result of this study was about the Making of "Pulau Tengah" Storybook in English and Bahasa.
