## PREFACE

Praise for the blessings and grace of Almighty Good, who has provided health and opportunities to the author so that can complete practical work activities and have completed practical work reports that the authors do at PT.Indah Kiat Pulp and Paper Tbk-Perawang Mill on time, namely from January 22<sup>th</sup> 2024 until June 30<sup>th</sup> 2024.

The authors also express their gratitude to all employees of PT.Indah Kiat Pulp and Paper Tbk-Perawang Mill who are very kind, friendly and accept the writers to join and have an opportunity to become one of the family members of PT.Indah Kiat Pulp and Paper Tbk-Perawang Mill.

In compiling this job training report, the author realizes that without the guidance from various parties this job training report cannot be completed in a specific time, so the authors want to thank all those who have been involved and assisted the author.

Related parties include:

1. Mr. Jhony Custer, S.T., M.T as the Director of State Polytechnic of Bengkalis.
2. Mr. Armada, S.T., M.T as Deputy Director of State Polytechnic of Bengkalis.
3. Mrs. Supriati, S.ST., M.Si as Head of Business Administration Department.
4. Mrs. Wan Junita Raflah, B.Sc., M.Ec, Dev as Head of International Business Administration Study Program.
5. Mr. M. Alkadri Perdana, B.IT., M.Sc as Coordinator of this apprenticeship.
6. Mr. M. Fuad Asrofillah, S.E., M.M as the best supervisor who provides direction and guidance author to completing this Apprenticeship Report.
7. Mr. Armadi, SE., ME as the Head of Public Relation of PT.Indah Kiat Pulp and Paper Tbk-Perawang Mill.
8. Mr. Jasin Kuniawan as the Head of Logistic Divison of PT. Indah Kiat Pulp and Paper Tbk-Perawang Mill.
9. Mr. Royandi, SE., ME as the Head of Operation Port Divison of PT.Indah Kiat Pulp and Paper Tbk-Perawang Mill.

10. All lecturers, especially the Applied International Business Administration Study Program, who have taught during their time as lecturers at the Bengkalis State Polytechnic.
11. To the gate of my heaven my mother, Umi kalsum. S.sos, A great and a beautiful woman who always provided support, prayers, time, energy that brought me to where I am today. She never stops giving love and affection with full of love and always provides motivation. Thank you for striving for my life, thank you for all the prayers and support, so that I can survive until now. Mom please stay healthy and live longer. Please always be there in every journey and achievement of my life. I love you more than any word can say.
12. To my first love my father alm. Nursyah Thank you for being a great father in my life. Life without the presence of a father is really tough, without a father figure teaching me how to survive and protect myself, without relying on his role anymore. Dad, there's still a sense of envy when I see others still experiencing love from their fathers. But I know you must be proud to see me here, I know you're proud to see your daughter being independent, proud to see your daughter reaching this point. Thank you, Dad, I will always pray for you from here.
13. To my young brother and sister, M. azizul Hakim, M. Habbibullah, M. Kholilurahman and Jannatin Aliya thank you for being the reason for my success. You are the source of my strength and motivation when I am at my lowest point. Thanks for always making me laugh with your funny and sometimes annoying behavior. Without you, my life would be flat. Thank you for being the best younger siblings to an older sibling who still has many flaws.
14. To Salsabila Fajria, Rahma Sri Junjungan, Hani Wardana, Siti Rahmadhani, Khairani, and Putri Novalia, thank you for being a sanctuary and my second home. Who would have thought that you, whom I met six years ago, would become a part of my life. Thank you for being a place for me to vent and thank

you for giving me encouragement even though I rarely hear you directly cheering me on, I know you always pray for me.

15. To someone I never expected to become my companion, Putri Fajrin Rahmadhani. Thank you for being a part of the journey towards the same goal, which is graduation. Everyone has their time, and I don't know if we will be together forever, I don't know how long we will be friends, but thank you for being present in my life, thank you for being the best companion for me all this time. I hope we continue to be together, always share stories, and become friends forever.
16. To all the employees of IKPP, especially to sister Rika Fauzia and sister Puputyas. Thank you for the opportunity given to me in this Port Operation. The guidance and support from the entire port operations team have provided me with many meaningful lessons. Every experience I gained during this internship not only enhanced my knowledge and skills but also enriched my perspective on the working world."

# CHAPTER I

## INTRODUCTION

### 1.1 Background of the Apprenticeship

The State Polytechnic of Bengkalis initially began as a higher education institution founded by the Bengkalis Regency government through the Gema Bahari Foundation, initially known as the Bengkalis Shipping Polytechnic. The college originally offered three study programs, namely Ship Electrical Engineering, Ship Building Engineering, and Ship Mechanical Engineering. Over time, the institution's name changed to Bengkalis Polytechnic and came under the Bengkalis Bangun Insani Foundation. It expanded its curriculum to include five study programs, namely Shipping Engineering, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Business Administration. The first batch of students was admitted in 2001, and in 2006, Bengkalis State Polytechnic added two more study programs, English and Informatics Engineering.

As of December 26, 2011, the Bengkalis Polytechnic officially transformed into a State University, named State Polytechnic of Bengkalis, through the Minister of National Education's Regulation No. 28 of 2011. This change was inaugurated by the Minister of Education and Culture of the Republic of Indonesia. Currently, the State Polytechnic of Bengkalis consists of eight departments, which include Marine Engineering, Mechanical Engineering, Electronic Engineering, Civil Engineering, Business Administration, English, Informatics, and Maritime Engineering.

The State Polytechnic of Bengkalis offers 18 study programs, with nine of them being D-III programs, such as Marine Engineering, Mechanical Engineering, Electronic Engineering, Civil Engineering, Business Administration, Informatics Engineering, English, Nauticals, and Management of Commercial Shipping. Additionally, there are nine D-IV programs, which include Production and Maintenance Mechanical Engineering, Electrical Engineering, Road and Bridge

Design Engineering, International Business Administration, Public Financial Accounting, Software Engineering, Shipbuilding Architectural Engineering Technology, English for Business and Professional Communications, and Information Systems Security.

The Department of Business Administration specifically offers three study programs: D-IV Digital Business, D-IV International Business Administration, and D-IV Public Financial Accounting. The Business Administration Study Program focuses on Secretariat and Office Administration. State Polytechnic of Bengkalis is a vocational campus that educates its students to create competent minds in various fields and be able to practice them directly. One way to implement the meaning of a vocational campus is to carry out a practical work program which is mandatory for all final semester students. Practical Work is a means for students to develop themselves when they will enter the world of work. This Work Practice activity can make a significant contribution to the development of students to prepare themselves as well as possible before entering the world of work as well as to the development of competencies at the State Polytechnic of Bengkalis.

This practical work is carried out after State Polytechnic of Bengkalis students complete a minimum of 7 (seven) semesters and graduate in full. Practical Work carried out for 5 (five) months. Based on the above, the author as a student of the International Business Administration Study Program is required to carry out practical work for 5 (five) months. The author decided to carry out job training activities at PT. Indah Kiat Pulp and Paper Tbk-Perawang Mill in order to apply the theoretical knowledge and concepts gained during lectures in a real-world work environment. The author chose PT. Indah Kiat because it is one of the largest companies that aligns well with my field of study. This choice allows the author to directly experience applying theoretical knowledge and concepts within area of expertise. Furthermore, the author gains the opportunity to analyze problems related to the knowledge applied in the work according to study program.

The implementation of the Job Training the author gets a place in the Operation

Port, especially the Invoice management section. The implementation of this Job Training starts from January 22th, 2024 to June 30th, 2024. It is hoped that this Job Training will add to the author's insight into various good and correct implementation of tasks and be able to face the real world of work with the experience he has gained.

### **1.2 Purpose of the Apprenticeship**

The practical work activities of State Polytechnic of Bengkalis Students, International Business Administration Study Program have the Following objectives:

1. Find out job descriptions during practical work in port operations of PT. Indah Kiat Pulp and Paper Tbk-Perawang Mill.
2. Find out practical workplace systems and procedures in port operations of PT. Indah Kiat Pulp and Paper Tbk-Perawang Mill.
3. To find out the document and files used in port operations of PT. Indah Kiat Pulp and Paper Tbk-Perawang Mill.

### **1.3 Significances of Apprenticeship**

The practical work carried out is very beneficial for several parties such as students, companies and State Polytechnic of Bengkalis:

1. For Students.  
Students are given the opportunity to apply the theoretical knowledge and concepts learned during lectures in a real-world work environment.
2. For Companies.  
There is a collaboration between the educational and industrial sectors, allowing academics and companies to identify potential employees with quality, dedication, and credibility.
3. For State Polytechnic of Bengkalis.  
The institution receives feedback from companies regarding curriculum development and learning processes for students participating in practical work.

## CHAPTER II

### GENERAL DESCRIPTION OF THE COMPANY

#### 2.1 Company History

PT Indah Kiat Pulp & Paper Tbk., commonly known as the Company, was founded in Indonesia under the Foreign Capital Investment Law No. 1 of 1967, based on a Notarial Deed dated December 7, 1976. The Company specializes in the integrated pulp and paper sector with PMA (PMA) status. PT Indah Kiat Pulp & Paper Corporation was initially spearheaded by Soetopo Jananto (Yap Sui Kei), who was part of the Berkat Group at the time. In 1975, Berkat Group, which had numerous subsidiaries, invited Chung Hwa Pulp Corporation and Yuen Foong Yu Paper Manufacturing from Taiwan to conduct a feasibility study. The proposed location for the paper factory was in Serpong, Tangerang, West Java, while the pulp factory was considered in Central Java, Jambi, Riau, and seven other regions.

**Figure 2.1 PT Indah Kiat Pulp & Paper Tbk**  
*Source: PT Indah Pulp & Paper Tbk- Perawang Mill*

The Company is engaged in manufacturing, trading, mining and forestry. Currently, the Company is engaged in the manufacture of cultural paper, pulp, tissue and industrial paper. The Company has been listed on the Jakarta and Surabaya Stock Exchanges since 1990 (currently, they merger become Indonesia Stock Exchange).

The Company currently operates production facilities in three locations:

Perawang-Riau, Tangerang, and Serang Banten. The scope of activities of PT Indah Kiat is in the fields of industry, trade, mining and forestry. Indah Kiat's main business activities are in the cultural paper industry, pulp and paper industry. Currently, Indah Kiat produces pulp, various types of paper products consisting of paper for writing and printing purposes, photocopying paper, industrial paper such as packaging paper which includes containerboard (linerboard and corrugated medium), corrugated shipping container (conversion from corrugated medium). containerboard), food packaging, boxboard and coloured paper.

PT Indah Kiat Pulp & Paper Tbk has several production facilities in Perawang-Riau, Tangerang, and Serang Banten. The facilities in Tangerang include a paper mill and a packaging paper mill. At the same time, PT IKPP is preparing the pulp mill location in Perawang and Pinang Sebatang, Tualang District, Siak Sri Indrapura Regency, Riau Province. A year later, the physical construction of Pulp Phase I began in Riau Province. Additionally, PT IKPP is building loading and unloading facilities in the form of a special port that can be docked by ocean ships with a dead weight of more than 6,000 tons. This facility is located approximately 1.5 kilometers from the pulp mill location on the banks of the Siak River.

PT Indah Kiat Pulp & Paper Corporation is a national private legal entity that is trusted to manage forests and forest product industries in the form of the HPH Group:

1. PT Arara Abadi concession area of  $\pm 265,000$  Ha.
2. PT Wira Karya Sakti concession area of  $\pm 220,000$  Ha.
3. Mapala Rabda concession area of  $\pm 155,000$  Ha.
4. PT Dexter Timber Perkasa Indonesia concession area of  $\pm 166,000$  Ha.
5. PT. Murini Timber concession area of  $\pm 116,000$  Ha.

In general, PT Indah Kiat Pulp & Paper, based in Perawang, initially produced pulp, which was then sent to another factory in Perawang to be converted into packaging paper. Following this, the production was sent to the factory in Tangerang, West Java, to be processed into writing and printing paper for direct marketing to consumers. Indah Kiat's core business activities focus on the cultural paper industry

and the pulp and paper industry. Presently, Indah Kiat manufactures pulp and various paper products, including writing and printing paper, photocopy paper, industrial paper such as packaging paper (including containerboard like linerboard and corrugated medium), corrugated shipping containers (converted from containerboard), food packaging, boxboard, and colored paper.

The products manufactured by this company not only cater to the domestic market but have also reached the international market. The company exports to various countries across Asia, North and South America, Australia, Africa, and Europe. Their export destinations include China, Hong Kong, Taiwan, Southeast Asia, the Middle East, Africa, Europe, and the USA.

## **2.2 Vision and Mission**

Every company must have a vision and mission in order to realize its goals and as a driving force to carry out their respective programs, as well as PT Indah Kiat Pulp and Paper Tbk. The following is the vision and mission of PT Indah Kiat Pulp and Paper Tbk – Perawang Mill:

1. Vision

Become a leading and respected global pulp and paper company that provides superior values to customer, community, employees and shareholders-responsibly and sustainably.

2. Mission

The company's mission in realizing the expected goals is as follows:

- a. Increase global market share.
- b. Use cutting edge technology in the development of new products and achievement of mill efficiency.
- c. Improve the quality of human resources through training.
- d. Realize sustainability commitment in all operations.

### **2.3 Kind of Business**

PT Indah Kiat Pulp & Paper Tbk is an Indonesian company operating in the pulp and paper industry. The main business activities of PT Indah Kiat Pulp & Paper Tbk – Perawang Mill are divided into two segments: paper and pulp products, and packaging/industrial paper products.

For the paper and pulp segment, the company produces general pulp, writing paper, and photocopy paper. In contrast, the packaging/industrial paper segment includes containerboard (linerboard and corrugating medium), corrugated shipping containers (converted from containerboard), boxboard, food packaging, and colored paper.

The company operates production facilities in three locations: Perawang in Riau Province, Tangerang in West Java Province, and Serang in Banten Province. PT Indah Kiat Pulp & Paper Tbk utilizes cutting-edge wastewater treatment technology to reduce pollutants and energy usage. In addition to its environmentally friendly operations, Indah Kiat has a large tree planting program and a 300,000-hectare Community Plantation Forest (HTI) featuring species such as *Acacia mangium*, *Acacia crassicarpa*, and *Eucalyptus urophylla*. These efforts help preserve the environment and combat global warming.

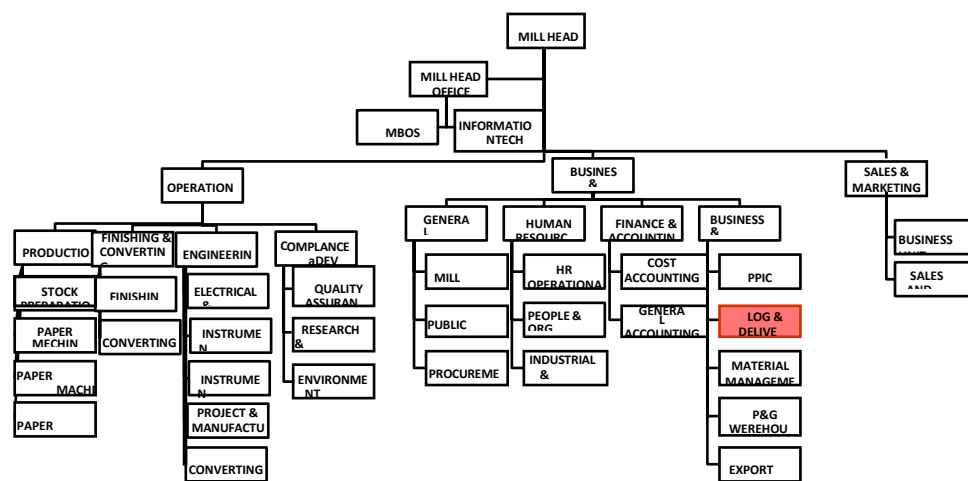

### **2.4 Organization Structure**

The organizational structure is a crucial tool for a company to reach its goals. Whether a company is commercial or non-commercial, it requires a clear line of cooperation and coordination among its members to achieve its pre-defined objectives. An effective organizational structure should be flexible enough to adapt to changes without disrupting ongoing activities. The best organizational form depends significantly on each company's unique situation, conditions, and objectives, as these vary from one company to another. The chosen organizational structure should support the company's goals. In a well-designed organizational structure, it is important to clarify the relationships, authority limits, and responsibilities of each employee.

Therefore, company activities must be systematically organized to ensure that the main objectives are met efficiently.

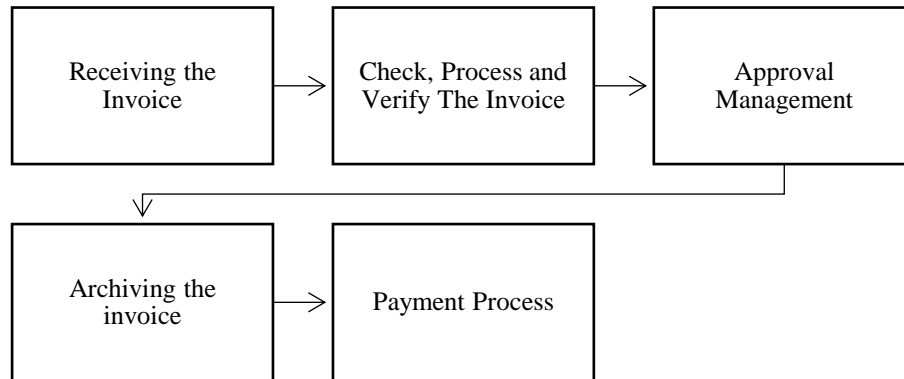

The organizational structure of PT Indah Kiat Pulp & Paper Tbk is designed according to regulations, detailing the functions, duties, and responsibilities of each department in their respective areas. The organizational structure of PT Indah Kiat Pulp & Paper Tbk – Perawang Mill can be seen in Figure 2.2 below as follows:

**Figure 2.2 The Organization Structure of PT Indah Kiat Pulp & Paper Tbk**  
*Source: PT Indah Kiat Pulp & Paper Tbk- Perawang Mill*

## 2.5 The Working Process

Operation Port is the most important part in a company in export-import activities. Without a port, loading and unloading activities, both exports and imports, cannot move and can have a major impact on company growth. Therefore, activities in operation port must be carried out properly and in detail both externally and internally. The most important part in a operation port is invoices, invoices have an important function, namely as collecting payments to buyers for transactions that occur and also for detailing transactions, accounting controls, and as internal controls for companies. In order for the invoice billing process to be carried out properly PT. Indah Kiat Pulp and Paper Tbk formed a special team to work on the invoice. The invoice team work process can be seen in Figure 2.3 below as follows:

**Figure 2.3 The Working Process of Port Operation Division**  
*Source: PT. Indah Kiat Pulp & paper Tbk-Perawang Mill*

1. Receiving the Invoice

The invoice acceptance process can be done in two ways, namely through email and directly from the vendor. When invoices are received via email, the responsible PIC will check and print them. Whereas, for invoices received directly from the vendor, the invoice will be verified and accepted by the receiving PIC. After the invoice is received, the next step is to record all invoices in a control list known as the controllist. This controllist functions to record and track all incoming invoices to ensure that none are missed and to avoid duplicate payments. Furthermore, the invoices that have been recorded in the controllist will be inputted into the Invoice Control System (ICS). ICS is an integrated system that helps to organize, monitor, and process invoices efficiently.

2. Check, process & Verify the Invoice

Checks, process, and verification in the invoice collection process are crucial to ensure that this process is carried out accurately and efficiently. Starting from inputting the invoice into the Invoice Control System (ICS). This step ensures that the invoice is properly recorded and tracked. After the invoice is input, it must be checked to ensure that the invoice is accurate and complete. This includes checking for any errors or discrepancies. During the process, continuous checks and verification must be performed to ensure that there is

no overbudget. This includes monitoring expenses incurred and comparing them with the budgeted amounts.

3. Approval Management

The approval management process involves several steps, including inputting invoices, verifying invoice details, sending data, attaching documents, and undergoing approval from various parties. These parties include tax accounting, invoice head, port operation head, logistics head, and mill head. After approval, a notification letter for sending invoices is issued, and a log sheet is left open for comprehensive inspection and verification to ensure that all required inspections have been performed and that the documents are accurate and complete.

4. Payment Process

The payment process can be disbursed if the Log sheet along with the invoice complete with attachments is then checked and verified again. If everything is complete, the payment process will be carried out.

5. Archiving the Invoice

After the payment process is completed, the invoice is archived for future reference. This step ensures that all invoices are properly stored and easily accessible for auditing and compliance purposes. The archived invoices are typically stored in Invoice Control System (ICS).

## **2.6 Document Used for Activity**

In carrying out its operational activities, there are several documents used by PT Indah Kiat Pulp & Paper Tbk-Perawang Mill, especially the Operation Port Division as follows:

1. Invoice by Email

An invoice sent via email is used to quickly and efficiently send billing details to clients or customers. This invoice includes complete information about the transaction and is usually received in a digital format, simplifying

administrative and payment processes.

### 3. TP (Advance Application)

"Advance Application" refers to a request or application for an advance payment made by an employee or a specific department to a company. This is a process where someone or a work unit requests an advance payment that will be used for a specific purpose, such as operational expenses, official travel, or other needs before the activity is carried out. This document also includes detailed advance information, related tax information, and a list of individuals who have given approval on various dates. Generally, this advance application aims to ensure that the necessary funds are available before a specific activity or transaction is performed.

#### 4. Payment Application

A payment application at a company refers to the process of specifying the conditions under which customers must pay for goods or services provided by the company. Payment terms are important for businesses as they help regulate the payment process and ensure a smooth transaction between the company and its customers.

5. Shipment Plan for Container

A Shipment plan for a container at a company typically refers to a detailed document or digital representation that provides a comprehensive layout of how cargo is arranged, secured and transported. It includes information such as the type, quantity, and placement of goods, as well as any necessary securing measures to prevent damage during transit. The shipping company formulates a reasonable shipping plan based on the weight of the cargo, the capacity of the cargo hold, the date of departure, and other characteristics. This plan ensures efficient space utilization, optimal weight distribution, and compliance with safety regulation.

6. Log sheet

Log sheet is a work sheet used to record important information related to transactions and payments to vendors. Based on the documents provided, this Log sheet includes several key elements such as the vendor's name, invoice number or payment application number, document number, transaction

description, amount of cost to be paid, and URN or barcode number related to it. Additionally, there are several names that sign the Log sheet as responsible parties, including the CEO of PRW, Logistic Head, Port Operation Head, Invoice Team, PIC Invoice, and TAX. The entire Log sheet serves as an important document to ensure that all transactions are recorded accurately and have been approved by responsible parties through their signatures.

- Document List of Report of OPP/OPT and PBM  
 Invoice of OPP/OPT and PBM are records pertaining to transactions involving purchases, sales, and trade. This document can be used to load and unload products as a means of billing or as documentation of transactions. OPP stands for Out Port Purchase, which refers to costs or purchases made at the destination port. This includes expenses incurred after the ship or cargo arrives at the destination port, such as loading and unloading fees, cargo handling, and other costs associated with the shipment at the destination port.

OPT stands for Other Port Tariffs, which includes additional tariffs or charges that may be imposed at ports other than the main origin or destination port. These costs can include various tariffs and charges not covered by the main shipping tariff, such as temporary storage fees, security inspection fees, additional documentation costs, and others.

8. Tax Invoice

Tax invoice is an official document used by taxpayers to record sales of goods or services subject to tax to buyers or service recipients. This document includes information about the seller, buyer, goods or services sold, transaction value, and the amount of tax imposed. Tax invoices must also include the serial

number, NPWP, address, and electronic signature of the seller, as well as details on the basis of tax imposition and the total Value-Added Tax (VAT) that must be paid.

9. URN

URN (Unique Reference Number) is a unique code that will be used in the processing and tracking of documents. The URN must be printed and placed on the first page of every document submitted. The URN is used by the Aspiro

team to process payments, and it can be concluded that this URN also serves as an identifier that links documents to relevant payment transactions, ensuring that every transaction is accurately recorded and processed.

**Figure 2.12 URN**

#### 10. Capture of invoice

Capture of Payment Application (Save as Draft) is a temporary document used before an official payment application is submitted. This document is saved in draft status and serves as an attachment containing detailed information about the payment request. This document is submitted to the head of the billing team for verification before the official payment request is made. After verification and approval, this document will have its status changed from draft to submitted for further processing.

**11. Bill of lading**

A bill of lading is a legal document that serves as a receipt for the shipped products, a document of title to the goods described in the bill of lading, and a contract between a carrier and a shipper. It is issued by a transport company to a shipper and details the type, quantity, and destination of the goods being

shipped. The bill of lading is crucial in sea transport when the supplier (shipper) decides to release ownership of the cargo to the buyer (consignee). It guarantees the holder an exclusive right to claim delivery of the cargo and is essential for claiming the delivered good.

## 12. Shipment Cost Tracking Report

Shipment Cost Tracking Report is a document that provides information about the cost of shipping goods from one location to another. The report may include details such as the shipment reference, arrival date, cost elements attached to each purchase order line, and shipment totals. It may also list the expected and actual costs of shipping, as well as any discrepancies between the two. The purpose of the report is to help businesses track their shipping costs and identify areas where they can reduce expenses. There are various software and platforms available that can help businesses track and manage their shipments, such as the shipment tracking report in Indah Kiat.

## **CHAPTER III**

### **SCOPE OF THE APPRENTICESHIP**

#### **3.1 Job Description**

This practical work program is carried out at PT. Indah Kiat Pulp and Paper Tbk - Perawang Mill four five months, starting from January 22<sup>nd</sup> 2024 to June 30<sup>th</sup> 2024. During the internship period, Job training participants are placed in the Operation Port Division. There are several tasks during the job training in the Invoice section at PT. Indah Kiat Pulp & Paper Tbk – Perawang Mill are as Follows:

1. Invoice Billing Process.
2. Create Shipment Costs.
3. Printing Bill of Lading
4. Printing Shipment Plan for Container.
5. Checking Travel Letter Invoice/ Way Note Invoice.
6. Compiling Document list of port OPP/OPT and PBM Cost Report.

Through this practical work program, participants are expected to enhance their skills and knowledge in various aspects of administrative and operational aspects in the Port Operation Division, particularly in the process of invoicing, creating shipping costs, creating Bill of Lading and shipping plans for containers, updating PA in the ICS application portal, inspecting waybill invoices, and compiling a list of port OPP/OPT and PBM cost reports. This experience aims to prepare participants with strong professional competencies and contribute positively to PT. Indah Kiat Pulp & Paper Tbk – Perawang Mill in improving operational efficiency and effectiveness.

#### **3.2 System and Procedure**

To facilitate employees in performing their tasks, the company implements a system. This system is necessary to support various company activities. PT Indah Kiat Pulp & Paper Tbk – Perawang Mill utilizes online systems such as SAP, FIORI, and

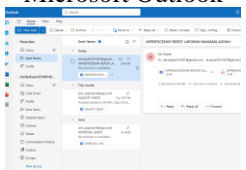

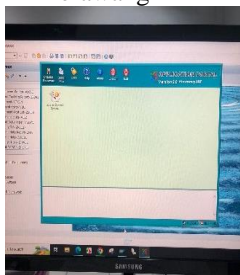

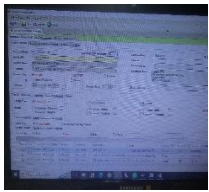

Aspiro in its operational activities. Also PT Indah Kiat Pulp & Paper Tbk – Perawang Mill utilizes offline systems such as spreadsheet, excel and etc.

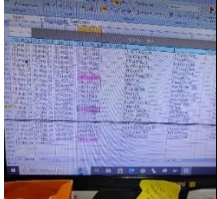

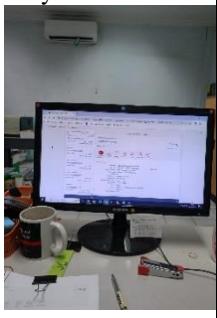

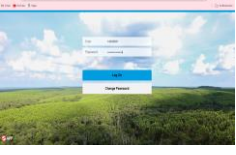

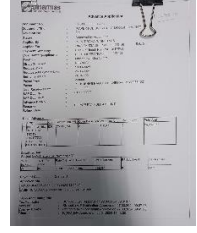

A company in carrying out its activities requires procedures to ensure that everything done is uniform or in accordance with the standards set by the company. Procedures are a series of work steps involving several people in one or more sections, designed to ensure the same treatment for frequent transactions. The procedure description carried out during the work practice (KP) in the Port Operation Division at PT Indah Kiat Pulp & Paper Tbk - Perawang Mill is as follows:

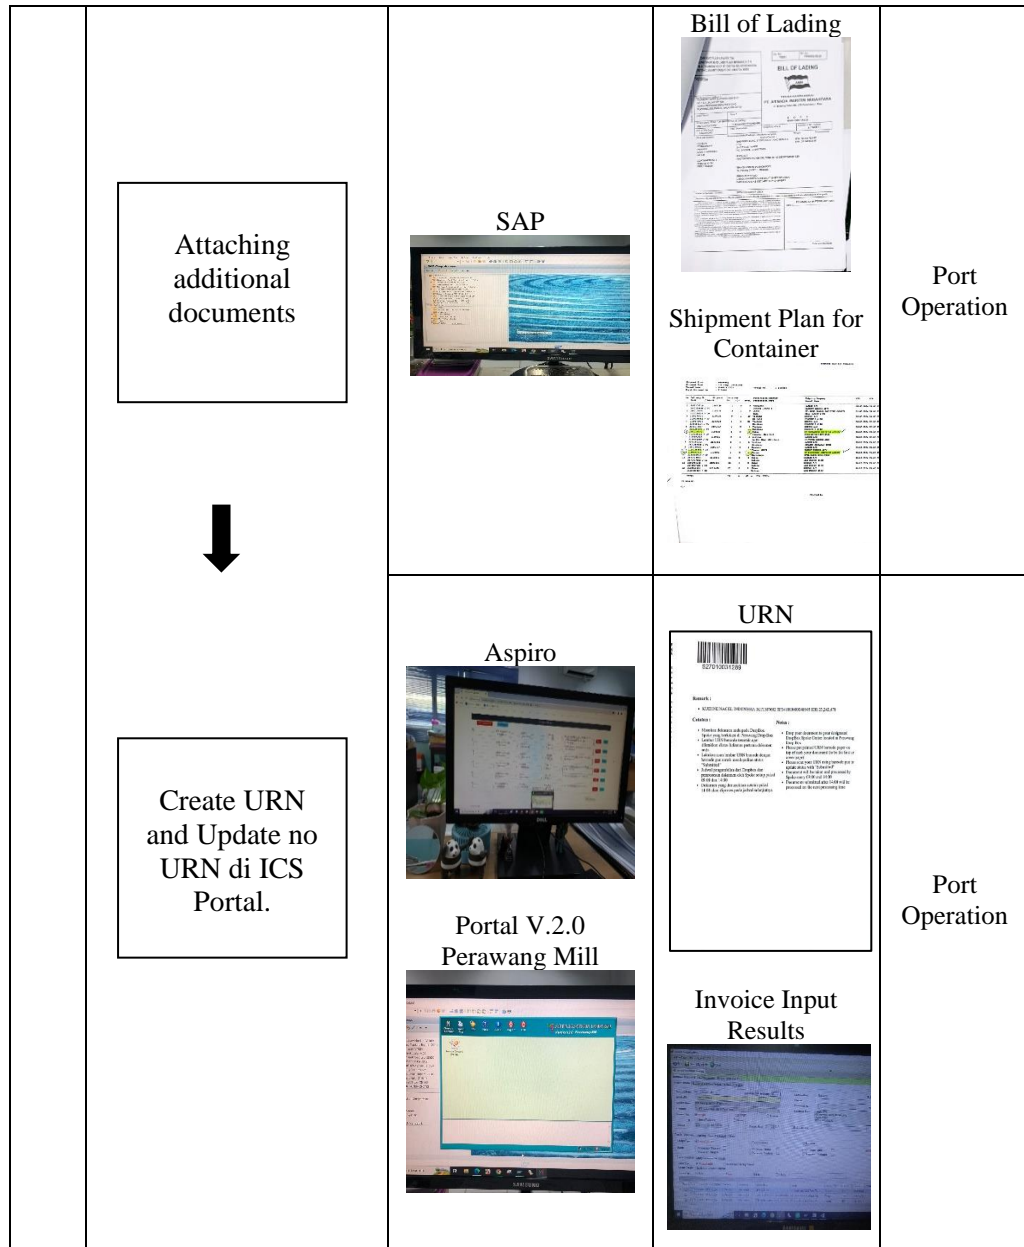

1. Invoice Billing Process

The company requires invoices in the process of exporting and importing their goods. The invoice billing process is a number of stages in billing sent from the seller to the buyer so that it can be verified and disbursed. The several steps in Invoice Billing Process can be seen in table 3.1 as follows:

**Table 3.1 The Invoice Billing Process**

No	Invoice Billing Process	Device	Output	Place
1.	<div style="border: 1px solid black; padding: 5px; text-align: center;">Receive invoice (by email or vendor)</div> <div style="text-align: center; margin: 10px 0;">↓</div> <div style="border: 1px solid black; padding: 5px; text-align: center;">Input invoice in ICS Portal</div> <div style="text-align: center; margin: 10px 0;">↓</div>	 <p>Microsoft Outlook</p>	 <p>Received Invoice</p>	Port Operation
	 <p>Portal V.2.0 Perawang Mill</p>	 <p>Invoice Input Results</p>	Port Operation	

<p>Creating a control list</p>	<p>Microsoft Excel</p> 	<p>Invoice Control list</p> 	<p>Port Operation</p>
<p>Open and capture draft Advance application or Payment Application</p>	<p>Fiori</p> 	<p>PA or TP as Draft</p> 	<p>Port Operation</p>
<p>Submit an PA or TP to the post-tax verifier.</p>	<p>Fiori</p> 	<p>Invoice Approved by tax verifier</p> 	<p>Port Operation</p>
<p>Make logsheet and submitted to approval management</p>	<p>Microsoft Excel</p> 	<p>Log Sheet</p> 	<p>Port Operation</p>
<p>Print Advance Application or Payment Application.</p>	<p>Fiori</p> 	<p>PA or TP</p> 	<p>Port Operation</p>

Source: Processed Data 2024

Based on the flowchart above, the several steps in invoice billing process are as follows:

- a. Receipt of Invoice: The process begins with the receipt of an invoice from a vendor or supplier via email or other means.
- b. Input Invoice in ICS Portal, the invoice is then input into the Invoice

Control System (ICS) Portal for tracking and management.

- c. Control List Verification, A control list is created to ensure that the invoice has not been previously paid. This step helps prevent duplicate payments.
- d. The next step involves opening an advance application or payment application on Fiori to facilitate the payment process. And the draft advance or payment application is captured and verified for accuracy and completeness.
- e. Submission to Post-Tax Verifier, the advance application or payment application is submitted to the post-tax verifier for further review.
- f. Log sheet Creation and Attachment, A log sheet is created and attached to the invoice, which includes relevant details and documentation. The log sheet is then submitted to the head of the invoice team, port operation head, logistics head, and CEO for approval. This step ensures that all necessary parties have reviewed and approved the invoice.
- g. Print Advance Application or Payment Application, Once approved, the advance application or payment application is printed for further processing.
- h. Attaching additional Document Attachment, Additional documents such as bills of lading (B/L), proposals, email confirmations, shipment plans for containers, and other relevant documents are attached to the invoice.
- i. URN Creation and Update in ICS Portal: A unique reference number (URN) is created and updated in the ICS Portal to track the invoice's status.

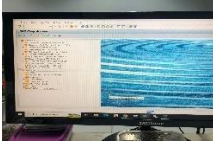

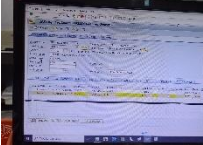

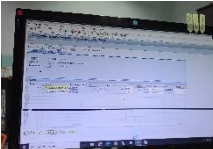

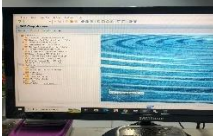

By following these steps, the invoice billing process ensures that all necessary checks and approvals are completed before payment is made, ensuring accurate and timely payment to vendors and suppliers.

## 2. Create Shipment Costs

A company's shipment costs typically include various expenses such as

fulfillment, packaging, and transportation. These costs can vary based on factors like shipment weight, shipping service, and destination. When estimating costs for an e-commerce business, one should consider additional elements such as operational costs, inventory onboarding, warehousing, support, pick and pack, kitting, packing, and shipping to get an accurate estimate. Additionally, it is essential to precisely record and categorize freight expenses in the company's accounting system, distinguishing between freight-in costs related to acquiring inventory, supplies, or raw materials, and freight-out costs related to shipping the product to the customer. The steps are illustrated in the following table:

**Table 3.2 Create Shipment Cost**

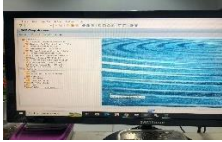

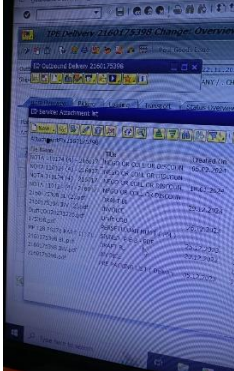

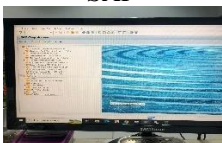

No	Shipment Cost	Device	Output	Place
1.	<div style="border: 1px solid black; padding: 10px; width: fit-content; margin: 0 auto;">Defining Shipping Type Procedure</div> <div style="text-align: center; font-size: 2em;">↓</div>	SAP 	Shipment type 	Port Operation
	<div style="border: 1px solid black; padding: 10px; width: fit-content; margin: 0 auto;">Calculating and displaying shipment cost</div> <div style="text-align: center; font-size: 2em;">↓</div>	SAP 	Overview: Freight cost items 	Port Operation
	<div style="border: 1px solid black; padding: 10px; width: fit-content; margin: 0 auto;">Creating a shipment cost</div>	SAP 	Cost center and account assignment 	Port Operation

Source: Processed Data 2024

3. Printing Bill of Lading

A Bill of Lading (B/L) is a legal document that serves as evidence of a transportation contract, a receipt for shipped goods, and a title document that conveys ownership. It details the type, quantity, and destination of the items being transported and is issued by a carrier to a shipper. The Bill of Lading contains information about the products, including their classification, number of cartons, total volume, weight, loading and destination ports, carrier name, and journey number. This document is vital in freight shipping as it can be used for claims if any issues arise during shipment and acts as proof of ownership, allowing the consignee to ensure the cargo is released upon arrival at its destination. The steps are illustrated in the following table:

**Table 3.3 Bill of lading**

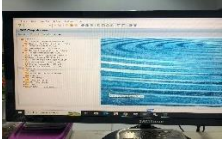

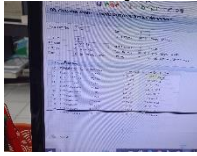

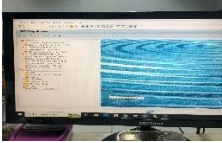

No	Bill of lading	Device	Output	Place
1.	<div style="border: 1px solid black; padding: 10px; text-align: center;"> <p>Enter code /OVI02n on SAP and enter delivery number</p> </div> <p style="text-align: center;">↓</p> <div style="border: 1px solid black; padding: 10px; text-align: center;"> <p>In the attachment list, select bill of lading</p> </div>	<p style="text-align: center;">SAP</p> 	<p style="text-align: center;">Outbound delivery</p> 	<p style="text-align: center;">Port Operation</p>
		<p style="text-align: center;">SAP</p> 	<p style="text-align: center;">Bill of lading</p> 	<p style="text-align: center;">Port Operation</p>

Source: Processed Data 2024

4. Printing Shipment Plan for Container

In order to guarantee the safe and effective transportation of the goods, a shipment plan for containers must adhere to a number of procedures. Confirming the cargo information and evaluating its specifics, including its type, volume, and mode of transportation (air or sea), are the first steps in the container reservation process. The steps are illustrated in the following table:

**Table 3.4 Shipment for container**

No	Shipment for container	Device	Output	Place
1.	<div style="border: 1px solid black; padding: 5px; text-align: center;">                     in /zs30, enter the delivery number and look for the shipment number                 </div> <div style="text-align: center; font-size: 2em;">↓</div> <div style="border: 1px solid black; padding: 5px; text-align: center;">                     Enter shipment number and printing the shipment plan for container                 </div>	<p style="text-align: center;">SAP</p> 	<p style="text-align: center;">Outbound delivery</p> 	Port Operation
	<p style="text-align: center;">SAP</p> 	<p style="text-align: center;">Shipment plan for container</p> 		

Source: Processed Data 2024

5. Checking Travel Letter Invoice/ Way Note Invoice

Way note invoice" refers to the relationship between two critical documents in logistics distribution: the waybill and the sales invoice. A sales invoice provides documentation of a bill or transaction to the customer, while a delivery note records the products sent. A waybill is generated after it has been authorized, illustrating how these two documents are interconnected in the logistics distribution process. The way note invoice encompasses the invoice matching procedure, which involves comparing invoices with other relevant documents

such as purchase orders, goods received notes, and inspection slips. This process ensures that payments are made only for valid and approved transactions, with amounts and prices accurately reflecting the payments. The invoicing process typically includes documents such as initial bids, pro forma invoices, final bills, delivery notes, and payment receipts. The steps are illustrated in the following table:

**Table 3.5 Checking Travel Letter Invoice/ Way Note Invoice**

No	Checking Travel Letter invoice	Device	Output	Place
1.	<div style="border: 1px solid black; padding: 10px; width: fit-content; margin: 0 auto;"> <p>Checking Travel Letter Invoice/ Way Note Invoice</p> </div> <div style="text-align: center; font-size: 2em;">↓</div> <div style="border: 1px solid black; padding: 10px; width: fit-content; margin: 0 auto;"> <p>summarize the verified waybills</p> </div>	Manual	Verified waybill 	Port Operation
	Microsoft Excel		delivery note summary 	Port Operation

Source: Source: Processed Data 2024

6. **Compiling Document list of Port OPP/OPT and PBM Cost Report.**

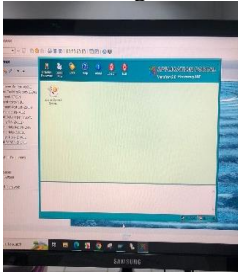

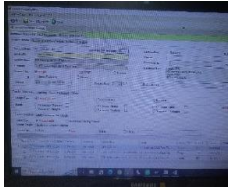

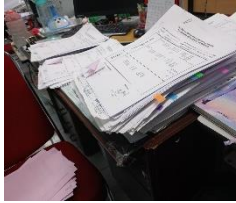

Compiling the document list of Port OPP/OPT and PBM cost report involves receiving, inputting, and sorting documents based on codes, as well as summarizing costs. The purpose of this task is to organize important documents related to port operations and ensure that cost reports are accurately prepared. The benefits of this process include facilitating the tracking and management of documents, improving the accuracy of financial reports, and ensuring compliance with reporting regulations. The expected outcome is a well-organized and

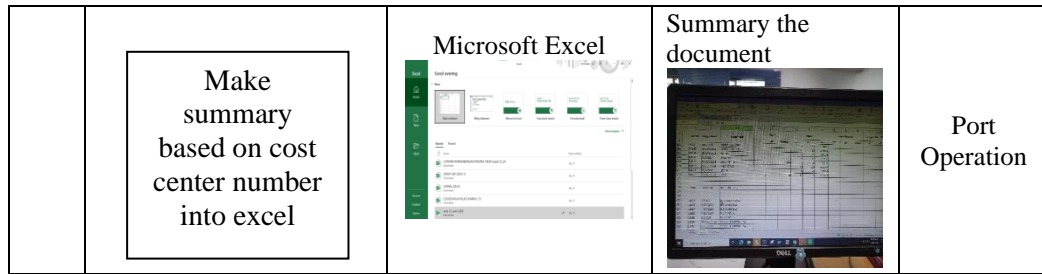

accurate list of Port OPP/OPT documents and PBM cost reports.

The several steps in compiling a document list of port OPP/OPT and PBM cost report can be seen 3.5 as follows:

**Table 3.6 Compiling Document list of Port OPP/OPT and PBM Cost Report**

No	List of OPP/OPT	Device	Output	Place
1	<div style="border: 1px solid black; padding: 5px; text-align: center;">                     Receive document list of port OPP/OPT and PBM Cost Report                 </div> <div style="text-align: center; margin: 10px 0;">  </div>	Manual	Document list of port OPP/OPT and PBM Cost Report 	Port Operation
	<div style="border: 1px solid black; padding: 5px; text-align: center;">                     Input Document list of Port OPP/OPT and PBM in Portal                 </div> <div style="text-align: center; margin: 10px 0;">  </div>	Portal V.2.0 Perawang Mill 	Input Results 	Port Operation
	<div style="border: 1px solid black; padding: 5px; text-align: center;">                     Sorting the list of OPP/OPT and PBM costs reports Based on code                 </div> <div style="text-align: center; margin: 10px 0;">  </div>	Manual	Sorting document 	Port Operation

Source: Processed Data 2024

Based on flowchart above, the first steps to compiling document is receive documents list of port OPP/OPT and PBM cost report from vendor Receive document list of port OPP/OPT and PBM Cost Report after that Input Document list of Port OPP/OPT and PBM in Portal ICS, and then sorting the list of OPP/OPT and PBM costs based on code, the last is make summary based on cost center number into excel.

### 3.3 Place of Apprenticeship

This Practical Work (KP) was carried out at PT. Indah Kiat Pulp & Paper Tbk - Perawang Mill which is located at Jl. Raya Minas Perawang KM.26, Pinang Sebatang Village, Tualang District, Siak Sri Indrapura Regency, Riau Province. During Practical work author is placed in the Operation Port Section. The company's provisions regarding the schedule or time for the implementation of practical work are as follows:

**Table 3.7 The Working schedule of PT Indah Kiat Pulp & Paper Tbk - Perawang Mill**

No	Day	Working Hours	Breaks
1.	Monday to Thursday	07.00- 17.00 WIB	11.00-13.00 WIB
2.	Friday	07.00 -17.30 WIB	11.30- 13.30 WIB
3.	Saturday to Sunday	Holiday	Holiday

Source: PT Indah Kiat Pulp & Paper Tbk – Perawang Mill

The agenda of activities or work that has been carried out by author during the implementation of the Job training at PT Indah Kiat Pulp & Paper Tbk – Perawang Mill in the Division from Operation Port from January 22<sup>nd</sup> – June 28<sup>th</sup> 2024 can be seen in appendices.

### **3.4 Kind and Description of the Activity**

During the internship at PT Indah Kiat Pulp & Paper Tbk – Perawang Mill, particularly in the Port Operation Division, several key activities and tasks were assigned to the job training participants. These activities were designed to provide practical experience and enhance the skills and knowledge of the participants in various administrative and operational functions. For further details, please refer to the attached document.

In addition to the tasks mentioned above, the author also engaged in several additional activities designed to provide a broader understanding of the industry and enhance the overall internship experience. These activities included:

1. Visiting Pindo Deli (Tissue Manufacturing Company)

To gain insights into the production processes and operations of a tissue manufacturing company. This visit provided an opportunity to understand the intricacies of tissue production, including raw material sourcing, manufacturing processes, and quality control measures. It also offered a chance to learn about the environmental and sustainability practices implemented by Pindo Deli. Enhanced knowledge of tissue manufacturing processes and best practices in sustainability, leading to a better understanding of the paper industry's diverse sectors.

2. Jetty Tour

To observe and understand the operations and logistics at the port, including loading and unloading processes, storage, and transportation of goods. The jetty tour allowed participants to see firsthand the port operations, providing a practical understanding of maritime logistics and the handling of bulk goods. It also highlighted the importance of safety and efficiency in port operations. Improved comprehension of port logistics and operations, contributing to a more comprehensive knowledge of the supply chain and its critical components.

3. Attending Competitions Commemorating K3 Day (Occupational Safety and

Health Day)

To participate in events aimed at promoting workplace safety and health awareness. Engaging in K3 Day competitions helped to foster a culture of safety and health awareness among participants. It also provided an opportunity to learn about various safety protocols and measures implemented within the industry. Increased awareness and understanding of occupational safety and health practices, contributing to a safer work environment and promoting a proactive approach to workplace safety.

Through participation in these additional activities, the author gained a more well-rounded experience during the internship, encompassing both the operational and safety aspects of the industry. These experiences contributed to the development of a broader skill set and deeper industry knowledge, ultimately enhancing the effectiveness and efficiency of the author's contributions to PT Indah Kiat Pulp & Paper Tbk - Perawang Mill. For more detailed information on these activities and their descriptions, please refer to the attached documents.

## **CHAPTER IV**

### **CONCLUSION AND SUGGESTION**

#### **4.1 Conclusion**

After doing practical work at PT. Indah Kiat Pulp & Paper Tbk – Perawang Mill, the following conclusions can be drawn:

1. There are several types of work during the practical work program, namely:
  - a. Invoice Billing Process.
  - b. Create Shipment Costs.
  - c. Printing Bill of Lading, and
  - d. Printing Shipment Plan for Container.
  - e. Checking Travel Letter Invoice/ Way Note Invoice.
  - f. Compiling Document list of port OPP/OPT and PBM Cost Report.
2. The Operation Port Department employs a combination of online and manual systems, including SAP, Microsoft Outlook, FIORI, and Aspiro systems. And manual systems such as spreadsheet and excel to streamline their work processes, making it more efficient to perform their duties.
3. In carrying out its operational activities, there are several documents used by PT Indah Kiat Pulp & Paper Tbk-Perawang Mill, especially the Operation Port Division as follows:
  - a. Invoice by Email
  - b. Invoice from Vendor
  - c. TP (Advance Application)
  - d. Payment Application
  - e. Shipment Plan for Container
  - f. Log sheet
  - g. Document List of Report of OPP/OPT and PBM
  - h. Tax Invoice

- i. URN
- j. Capture of invoice
- k. Bill of lading
- l. Shipment Cost Tracking Report

#### **4.2 Suggestion**

After doing practical work at PT. Indah Kiat Pulp and Paper Tbk – Perawang Mill, there are several suggestions, namely:

1. To further support interns, the company could enhance training programs that focus on specific job roles and systems used in the Port Operation Division. This will help new interns quickly adapt and become productive.
2. Providing comprehensive training on systems like SAP, FIORI, and Aspiro at the beginning of the internship would enable interns to perform their tasks more efficiently.
