

Daftar Pustaka

1. Avallone E. A. dan Baumeister T. III, Marks' Standard Handbook for Mechanical Engineers, 9th edition, New York, McGraw-Hill, 1987.2.
2. Brennstoffzelle-Vor- und Nachteile, Umwelt Bundes Amt, Bundesministerium für Umwelt, Naturschutz und Reaktorsicherheit, Germany, 2.6.1999.3.
3. Workshop : Brennstoffzellen – Fahrzeuge, TU Graz, Austria, 25.11.1999.4.
4. Gromatzky J., Ogburn M., Pogany A, Pare C., Hutchinson J., Nelson D.J., Integration of Fuel Cell Technology into the Virginia Tech 1998 Hybrid Electric Future Car, Virginia Polytechnic Institute and State University, Mechanical Engineering Department, Blacksburg, Virginia, 1998.5.
5. Luttrell W., King B., Postle S., Fahrenkrog R., Ogburn M., Nelson D.J., Integration of Fuel Cell Technology into the Virginia Tech 1999 Hybrid Electric Future Car, Virginia Polytechnic Institute and State University, Mechanical Engineering Department, Blacksburg, Virginia, 1999.6. Patton D., Latore J., Ogburn M., Gurski S., Bryan P., Nelson D.J., Design and Development of the 2000 Virginia Tech Fuel Cell Hybrid Electric Future Truck, Virginia Polytechnic Institute and State University, Mechanical Engineering Department, Blacksburg, Virginia, 2000.
