

CHAPTER 1

INTRODUCTION

1.1 Background of the Apprenticeship

In job training report research by Muhammad Rafi Riyadhi Jihan (2018), Competition in the world of work also develops along with the times. The advancement of the use of Science and Technology (IPTEK) in the world of work requires every human being to be able to balance it. Indonesia itself is starting to follow the development of Science and Technology in the world of work. Workers are required to be able to keep pace with the progress of science. Knowledge and Technology Communities in Indonesia will be filled with Foreign Workers if the native Indonesian themselves can not keep up with the progress of Science and Technology and can cause unemployment to rise.

In to achieve complete educational goal in higher education, it is felt less if student only rely on theoretical knowledge obtained from college. Therefore, knowledge is needed to apply the knowledge that has been obtained so that students can practice the aspects needed to enter the industrial world which they will be involved in later. In line with this, the university requires its student to take job training courses that are carried out in even semesters (Ayu Elfiana, 2021).

Job Training (KP) is an Intra-Curricular Activity that is part of the State and Community Life (MBB) subject group, in all majors at the Bengkalis State Polytechnic. In general, the implementation of the Job Training is aimed at improving students abilities and skills in the field of technology and skills directly in various activities in industry and offices (Ayu Elfiana, 2021).

After carrying out Job Training specially, student are expected to gain industrial experience which includes planning, processing and implementation in a work unit. The achievement of the above-mentioned Internship objectives ultimately refers to the professional formation of students who have broad skills and knowledge in the field of International Business Administration. With this

capability, graduates of the Applied Bachelor of International Business Administration at the Bengkalis State Polytechnic are expected to be able to apply their skills and knowledge.

State Polytechnic of Bengkalis also seeks to improve the ability of student by conductic training in companies, they can realize the mission of the Polytechnic to make staff ready use and have a link and match between the industrial world and the world of education that is carried out well.

1.2 Purpose of the Apprenticeship

Job Training (KP) is one of the activities for State Polytechnic of Bengkalis student in complementing their student. To achieve the expected result, it is necessary to know the objectives of the Job Training, which are as follows:

1. Provide opportunities for student to apply the theory/concept of science according to the study program that has been studied in college at an organization/company.
2. Provide opportunities for student to gain practical experience in accordance with the knowledge and skills of their study program.
3. Provide opportunities for student to analyze, examine theories/concepts with the reality of applying knowledge and skills in an organization/company.
4. Testing the ability Polytechnic of Bengkalis students (according to the related study program) in knowledge, skills and abilities in the application of knowledge and student attitudes/behaviour at work.
5. Receive good feedback from the business world regarding student abilities and the needs of business world for curriculum development and learning processes for Polytechnic of Bengkalis (according to the related study program).

1.3 Significant of the Apprenticeship

The benefits expected from the implementation of the Job Training (KP) are as follows:

1. As one of the requirements that must be met to complete a Diploma IV (D4) vocational education at the State Polytechnic of Bengkalis, especially the Department of International Business Administration.
2. Students have the opportunity to apply theoretical knowledge/concepts in the real world of work.
3. Student gain practical experience in applying theoretical/concept knowledge according to their study program.
4. Student have the opportunity to be able to analyze problems related to science applied in work in accordance with their study program.
5. Polytechnic of Bengkalis receives feedback from organization/companies on the ability of students who take KP in the world of work.
6. Polytechnic of Bengkalis receives feedback from the world for curriculum development and learning processes.
