CHAPTER I

INTRODUCTION

1.1 Background of Apprenticeship

Apprenticeship is a program that allows you to gain valuable skills and qualifications. State Polytechnic Bengkalis is vocational campus that educates its students to create a competence spirit and various fields. State Polytechnic of Bengkalis implements a apprenticeship program that is required to be followed by all final semester students. This is so that students will be able to compete in the world of work and be able to compete with an increasingly global world. The knowledge gained by students during the learning process from books and the delivery of the lecturers they learn in college is not sufficient to meet the requirements to become competent and competitive human resources.

State Polytechnic of Bengkalis is a vocational high education institution that has eight departments including Naval Architecture, Mechanical Engineering, Electrical Engineering, Civil Engineering, Language, Business Administration, Information Technology, and Maritime. There are two compulsory graduation requirements for students at State Polytechnic of Bengkalis, they are apprenticeship and final project. Apprenticeship is supposed to do in organizations that proper to the student's background. This program also ensure the students has the capability of adaptation, has work ethic, and responsible especially in the world of business. Besides, apprenticeship gives a lot of experience and knowledge for students.

Apprenticeship or better known as “Practice Work” or also abbreviated as KP is a series of activities that include an understanding of scientific theories/concepts applied in work according to the field of study. Apprenticeship can increase students' knowledge and skills and can solve scientific problems in accordance with the theories they get in college. Apprenticeship is carried out so that students can understand and apply well about the field of study. In addition, so that

students can know the profession and work atmosphere in accordance with their study program. So, apprenticeship is a useful place for students to use as a tool to gain knowledge and work experience. Apprenticeship is also one of the requirements for obtaining an applied bachelor's degree.

In this program, specifically for International Business Administration students in semester 8 (eight) apprenticeship activities are carried out for approximately 4 (four) months, by choosing their own place and location for apprenticeship. However, before choosing a place to do this program, the apprenticeship coordinator provides several options or options for apprenticeship places to students.

Then, from some of these options the author is interested in carrying out apprenticeship in the business industry, namely PT. Riau Andalan Pulp And Paper, Pangkalan Kerinci, Riau as a place to carry out practical work activities because the author wants to get the opportunity to apply the theoretical knowledge/concepts gained during lectures into the real world of work and the author gains direct experience in applying theoretical knowledge / concept according to the field of expertise. During the implementation of the Job Training the author got a place in SHR (Stakeholder Relation) at PT. Riau Andalan Pulp and Paper.

The implementation of this job training is starting from January 12th to May 15th, 2023 an apprentice worked as a SHR (Stakeholder Relation) staff at PT. Riau Andalan Pulp and Paper. Stakeholder Relation management from regency level up to province.

CHAPTER II

GENERAL DESCRIPTION OF THE COMPANY

2.1 Company History

2.1.1 Royal Golden Eagle (RGE) Group

Royal Golden Eagle (RGE), formerly known as RGM (Raja Garuda Mas), was officially registered in 1973. RGE began as a spare parts supplier shop called Toko Motor in 1967 in Medan, Indonesia. It was there that the founder and chairman of the RGE Group, Mr. Sukanto Tanoto, first entered the business world. During the oil crisis in 1973, he was able to overcome the rapidly rising oil prices to expand his business as oil companies expanded in the region. After a long break, he succeeded in establishing a plywood factory in Besitang, North Sumatra. At that time, he had observed that Indonesia was exporting logs and importing plywood, so he decided to invest in plywood manufacturing in Indonesia.

Sukanto Tanoto then built the world's largest pulp and paper mill in Kerinci, Riau. April Group is listed on the New York Stock Exchange. After overcoming

challenging conditions during the financial/financial crisis in the late 1990s, RGE expanded its presence in China, Brazil, Canada and Spain. RGE has 5C principles that are trusted by its founder, namely Sukanto Tanoto, to be able to bring goodness to the Community (community), Country (Country), Climate (climate), Customer (customer), and Company (company).

The business groups under the auspices of the Royal Golden Eagle (RGE) Group include the following:

1. *Pulp and Paper* - APRIL & Asia Symbol
2. *Palm Oil Industry* - Asian Agri & Apical
3. *Cellulosa Fiber* – Bracell
4. *Serat Viscose* - Sateri & Asia Pacific Rayon (APR)
5. *Development of Energy Resources* - Pacific Oil & Gas

Royal Golden Eagle (RGE) Groups have core values, namely T.O.P.I.C.C *start with me*. This value is used as a guideline for working in the company RGE Grup, T.O.P.I.C.C consists of abbreviations as follows:

1. *Complementary Team* or (Teamwork), we are one in purpose and complement each other in teamwork.

2. *Ownership* or (Sense of Belonging), we maintain a sense of belonging to always achieve the best.
3. *People* or (Human Resources), we develop human resources to grow together.
4. *Integrity* or (Integrity), we act with integrity.
5. *Customer* or (Customers), we understand and provide the best for customers.
6. *Continuous Improvement* or (Continuous Improvement), we avoid indifference and make improvements continuously.

2.1.2 Asia Pacific Resources International Holding Limited (APRIL) Group

APRIL Group is one of the pioneer companies from the RGE Group which is engaged in the pulp and paper business segment, and is one of the leading pulp and paper companies in the world. APRIL has its head office in Asia, namely Singapore and also has main production areas in Indonesia and China. Through state-of-the-art pulp and paper mills and industrial forest plantations operating in Riau province, Sumatra, Indonesia, as a large company, APRIL has a vision of "Improving lives by developing resources sustainably" and a mission of "To be one of the largest, best managed and sustainable resource-based Groups, creating value for the Community, Country, Climate, Customer, and Company". As such, corporate social responsibility is applied to APRIL Group's operations and management to promote the environment and develop society and to fulfill corporate social responsibility. The Tanoto Foundation, founded in 1981, is the implementation of this vision.

Figure 2.3 April Group Logo

Through its subsidiary in Indonesia. APRIL Group started developing plantations in Riau Province, Sumatra and built a factory in Pelalawan Kerinci from 1993. At that time, Kerinci was home to 200 families. This population grew to over 200,000 in 2010 as APRIL Group's development and business diversification transformed Kerinci into the regional social and commercial hub of the Province.

APRIL Group commenced commercial pulp production in 1995, followed by commercial paper production in 1998. This regional growth mirrored the growth of APRIL Group operations in Indonesia, with the establishment of Pelalawan District in 1999 and later the municipality of Kerinci in 2001. Kerinci's rapid growth this later allowed it to be divided into three regions in 2005.

In 2010, APRIL Group's forestry operations contributed 6.9% to the total economy of Riau Province. APRIL Group has created around 90,000 jobs for the community. APRIL is also contributing to providing better access to education and social support in areas such as health care and housing. APRIL Group has helped improve living standards and reduce poverty by 30%.

Recognizing the importance of community development as part of a long term approach to sustainable business, APRIL Group has also launched a series of economic development initiatives to assist the development of small and medium scale local entrepreneurs (SMEs).

In 2002, APRIL Group implemented a comprehensive timber legality system to prevent illegal timber from entering supply and production chains. The system verifies and tracks wood from the company's fiber plantations to the mills. APRIL Group also collaborated with the World Wildlife Fund (WWF) to tackle illegal logging in Tesso Nilo and signed a moratorium on further road construction and development of Acacia plantations in the Tesso Nilo area. In the same year, APRIL Group achieved ISO 14001 certification for pulp and paper mill fiber plantations.

In 2003, a decade after the company was founded, the APRIL Group published its first Sustainability Report, detailing its community development initiatives and commitment to sustainable forestry operations. In the same year, APRIL Group established a branch in Guangzhou to support the development of the company's operations in China.

In 2005, APRIL Group introduced a voluntary High Conservation Value (HCV) scoring system in its concession areas for land use planning. This policy provides practical and responsible solutions to the challenges of deforestation and degradation. APRIL also established the APRIL Learning Institute and received a Green Proper Rating for factory environmental performance as well as a Golden Flag Choice & Zero Accident Award for factory health and safety management from the Government of Indonesia.

In 2006, APRIL Group became a signatory to the UN Global Covenant Principles. In the same year, PT. Riau Andalan Pulp & Paper (RAPP), a subsidiary of APRIL, is certified for Sustainable Plantation Forest Management according to the Indonesian Ecolabelling Institute (LEI) standards. In 2007, APRIL through its subsidiaries became the first and only Indonesian company to be recognized by the World Business Council for Sustainable Development (WBCSD).

In 2008, the completion of Pulp Line 3 made Riau home to the world's largest integrated pulp and paper mill, with a production capacity of 2.8 million tons per year. Manufacturers certified to ISO 9001, 8000 and ISO 14001 continue to invest in technology to ensure the company can self-sufficiently meet its own electricity needs.

Since 2010, APRIL Group's production facilities have been certified by the Program for the Endorsement of Forest Certification (PEFC) on the Chains of Custody standard, which ensures that all raw materials entering the factory are supplied from legal and unproblematic sources. APRIL also obtained certification from the Hong Kong Green Label for its PaperOne™ products in 2010.

In October 2011, APRIL's subsidiary RAPP was successfully certified by Bureau Veritas standards for Timber Origin and Legality (OLB). RAPP is the first Asian plantation company in the industry to receive this certification. APRIL Group's OLB standard for forestry company certification covers production facility

forestry activities. The supply partners for RAPP have also successfully passed audits based on OLB's "Chain of Custody-Acceptable Wood" standards.

APRIL Group launched its Sustainable Forest Management Policy in January 2014. The new policy underscores APRIL Group's commitment to balance the need to save the environment and prioritize the interests of local communities, while continuing to run a sustainable business. An independent Stakeholder Advisory Committee was also introduced to ensure transparency and implementation of the Sustainable Forest Management Policy.

In June 2015, APRIL Group developed a Sustainable Forest Management Policy following input from SAC and various other stakeholders. APRIL is also strengthening its forest protection and conservation commitments including removing deforestation from its supply chain and adding a High Carbon Stock (HCV) assessment aspect.

2.1.3 PT. Riau Andalan Pulp and Paper (RAPP)

CHAPTER IV

CONCLUSION AND SUGGESTION

4.1 Conclusion

Based on the explanation in the previous chapter, the authors draw conclusions in several ways, namely as follows:

1. In practical work, the author is placed in the Stakeholder Relation PT. Riau Andalan Pulp and Paper. The tasks carried out are inputting data, scoring the proposal, email handling, create an apprentice ID badge, recap delivery order data, handling the documents to mill office and corporate office, fill a visit form, accompany the visit, arranging documents, printing documents, recapitulating data, and attend stakeholder event.
2. In the implementation of this Job Training, the author carried out a Job Training in PT. RAPP Pangkalan Kerinci, Pelalawan which was held for 4 (four) months, starting from January 12, 2023 to May 16, 2023 .
3. In this practical work the author also understands the system and work procedures carried out starting from data input to the system, scoring the proposal, handling the documents to mill office and corporate office, fill a visit form, accompany the visit, recap data donation, accompanying stakeholder from various circles to visit the company, email handling in a company, and procedures for doing internships in companies.
4. The obstacle that the author got while doing practical work at the Stakeholder Relation PT.RAPP Obstacles obtained when doing practical work, namely in managing email. when using a PC , every employee has strict security to be able to access before opening the email. so that when entering the username or password there is an error 3 times and results in access to the email being blocked. The solution is that employees immediately contact security to open email access.

4.2 Suggestion

Author provide some suggestions for various parties, namely for the author himself, for students or younger siblings who will do practical work in the next period, for companies and for the State Polytechnic of Bengkalis.

1. Author

The advice for the author is to be more careful, and thorough in work. Get used to reading first before acting, and ask if you don't understand. And carry out tasks in accordance with the directions or orders given by the employee concerned. And maintain company secrets by not telling out about company privacy.

2. College student

The author also provides suggestions for students who will carry out practical work in the future, namely to be able to pay attention to occupational safety and health, comply with established regulations, make the best use of time, be able to do work according to your abilities, try to ask if you don't understand, make work plans to be able to meet what targets you want to get when doing practical work, do the job as given, and always remain polite either to colleagues or to employees.

3. Company

After the author carried out internship activities at PT.RAPP Stakeholder Relations, Pangkalan Kerinci, Pelalawan. There are several suggestions for a better company, namely providing opportunities for internship students to try to gain insight into other parts of the company, including internship students to go directly to the field because there are still students who do not participate, telling in advance what when the company gives tasks that have great responsibility and high risk to internship students so that they are supervised, guided and taught the steps.

4. State Polytechnic of Bengkalis

The suggestion for the State Polytechnic of Bengkalis campus is to hold This Job Training can be used as an evaluation, and should be provided to

students before carrying out the Job Training in accordance with the field or course material in accordance with the Job Training company. And the person concerned will deliver students who will do practical work on the first day of entry, and pick them back up when students have finished doing practical work.
