ABSTRAK

Right issue merupakan aksi korporasi yang memberikan hak kepada pemegang saham eksisting untuk membeli saham baru secara proporsional sebelum ditawarkan kepada pihak luar. Penelitian ini bertujuan menganalisis pengaruh *right issue* terhadap harga saham dan kinerja saham pada perusahaan pertambangan yang terdaftar di Bursa Efek Indonesia (BEI) selama periode 2021–2024. Dengan menggunakan teknik *purposive sampling*, dipilih sejumlah perusahaan sebagai sampel. Analisis data dilakukan melalui regresi linear sederhana dengan bantuan perangkat lunak statistik. Hasil penelitian menunjukkan bahwa *right issue* berpengaruh positif dan signifikan terhadap harga saham. Namun, *right issue* tidak memberikan pengaruh yang signifikan terhadap kinerja saham. Dengan demikian, dapat disimpulkan bahwa *right issue* hanya memiliki pengaruh statistik terhadap harga saham, bukan terhadap kinerja saham.

Kata Kunci: ***Right issue*, Harga Saham, Kinerja Saham.**

THE IMPACT OF RIGHT ISSUES ON STOCK PRICES AND STOCK PERFORMANCE OF MINING COMPANIES LISTED ON THE INDONESIA STOCK EXCHANGE 2021-2024

ABSTRACT

A rights issue is a corporate action that gives existing shareholders the right to purchase new shares proportionally before they are offered to outside parties. This study aims to analyze the effect of rights issues on stock prices and stock performance in mining companies listed on the Indonesia Stock Exchange (IDX) during the period 2021–2024. Using purposive sampling, a number of companies were selected as samples. Data analysis was performed using simple linear regression with the help of statistical software. The results show that a right issue has a positive and significant effect on stock prices. However, a right issue does not have a significant effect on stock performance. Thus, it can be concluded that rights issues only have a statistical effect on stock prices, not on stock performance.

Keywords: ***Right issue, Stock Price, Stock Performance.***
