ABSTRACT

This study aims to determine the effect of Import Duty Tariffs, Import Volume, and Import Value. Independent variables are Import Duty Tariffs, Import Volume, and Import Value. The dependent variable in this study is the Realization of Import Duty Revenue at the Customs and Excise Supervision and Service Office of Type C Middle Customs of Bengkalis Regency during the period 2019–2023. The research period was conducted for 5 years. The research method is quantitative with saturated sampling technique, Samples of 30 imported goods activities and obtained a sample of 150. Data analysis was carried out using multiple linear regression analysis with the help of SPSS software version 25. The results of the study indicate that all independent variables affect the realization of import duty revenue, Simultaneously import duty rates, import volume, and import value have a significant effect on import duty revenue at the Customs and Excise Supervision and Service Office of Type C Middle Customs of Bengkalis Regency.

Keywords: *Import Duty Rates, Import Volume, Import Value, Import Duty Receipts*
